 Observation with Questions

 Interview underpinned by
a Portfolio of Evidence

 Multiple-Choice Test

Gateway Requirements

- Level 1 English and Mathematics
- Portfolio of Evidence
- Gateway Declaration Form
- Site Health & Safety and Risk Assessment Form

Occupational Profile

Process operators typically work on production lines within food and drink manufacturing businesses. The broad purpose of the occupation is to complete food and drink processing procedures to contribute to the manufacture of safe and compliant food products. They support technical operators to complete start up, set up, line changeovers, and shut down of food and drink production lines and machinery. They monitor product quality and throughput against key performance indicators. With a team focus, they prepare for the on-coming shift and provide handovers. Contributing to continuous improvement, stock control and audits is also part of the role.

Grading

The standard is graded overall: Fail, Pass, Merit or Distinction

End Point Assessment

Observation with Questions

The apprentice will be observed and asked question by an Independent Assessor in their normal workplace for a duration of 2 hours.

Interview underpinned by a Portfolio of Evidence

The apprentice will collate a portfolio of evidence during the on-programme period showcasing their best work. The portfolio of evidence supports the Interview, and the apprentice is expected to refer to their portfolio to illustrate their answers. The interview will be a for a duration of 45 minutes.

Multiple-Choice Test

The multiple-choice test is an on-line test consisting of 40 questions. The apprentice will have 60 minutes to complete the test.
